

HOW CAN **AUTHORS** BENEFIT FROM PARTNERING WITH **PROQUEST** **DISSERTATIONS AND THESES SERVICES?**

"Our subscription to PQDT continues to be used heavily, and I'm pleased with the very high usage statistics. PQDT remains a key tool to help our students find out if their topic has been covered before or to find out what else has been done that's related in their area. It's also good for our professors to see what their students, or those from other universities, have done in their subject areas."

Tony Horava, Associate University Librarian (Collections), University of Ottawa
