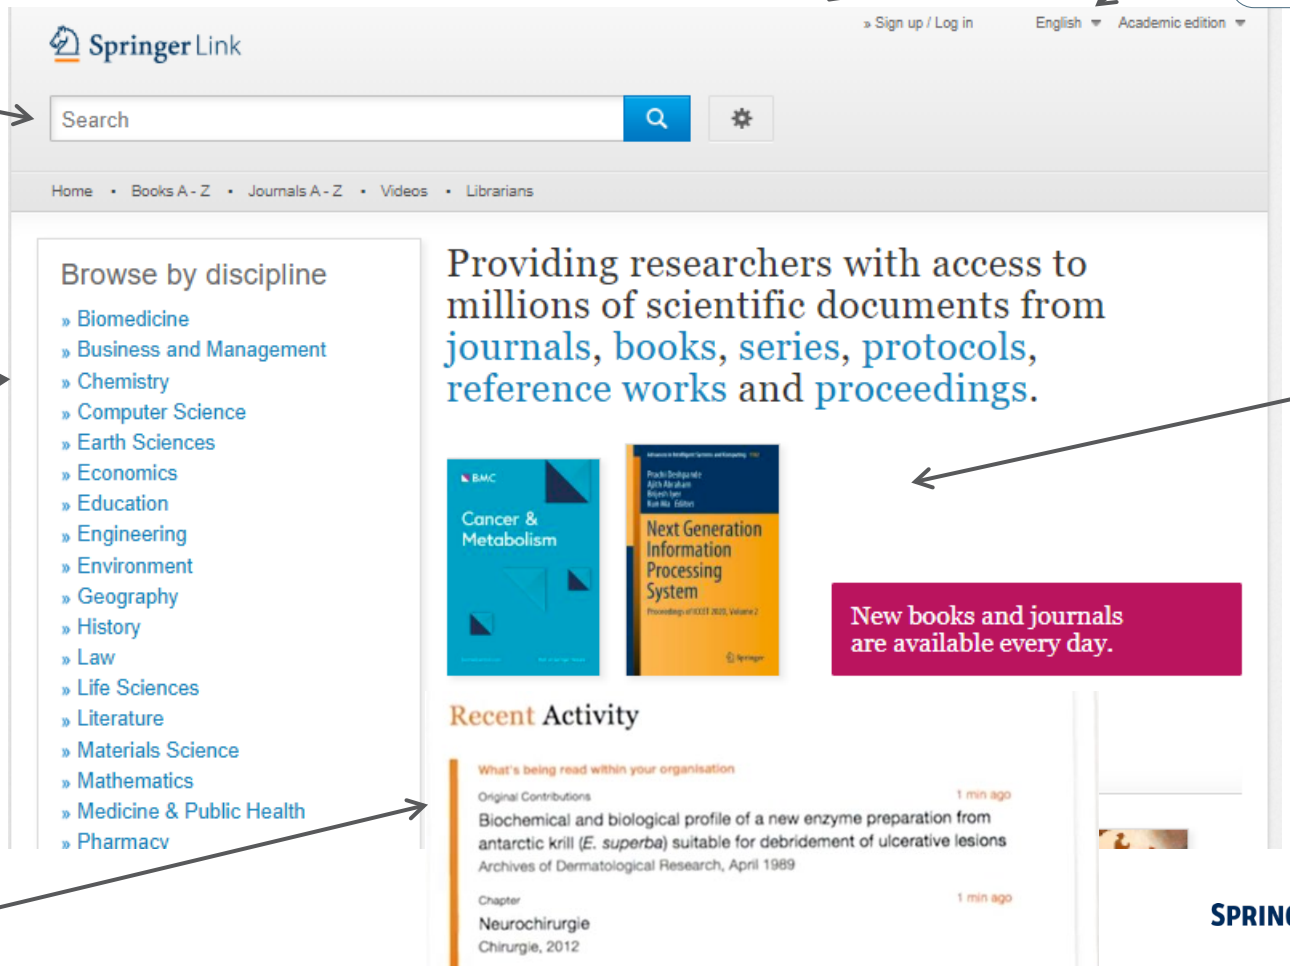
TUTORIAL

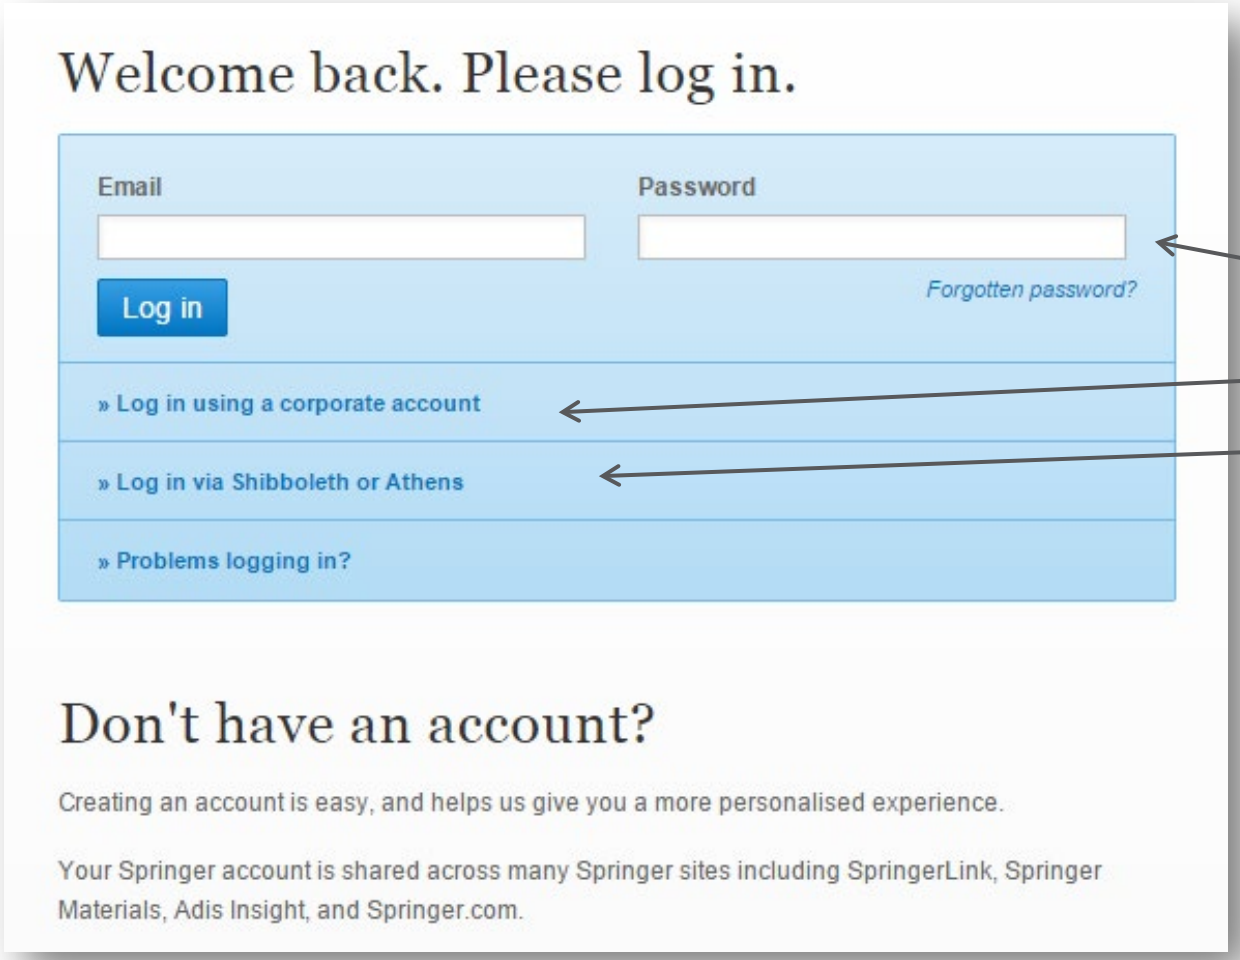
Welcome to SpringerLink

link.springer.com

10 million+ scientific resources to explore, such as journals, eBooks, conference papers, and videos



Institutional / Athens log-in



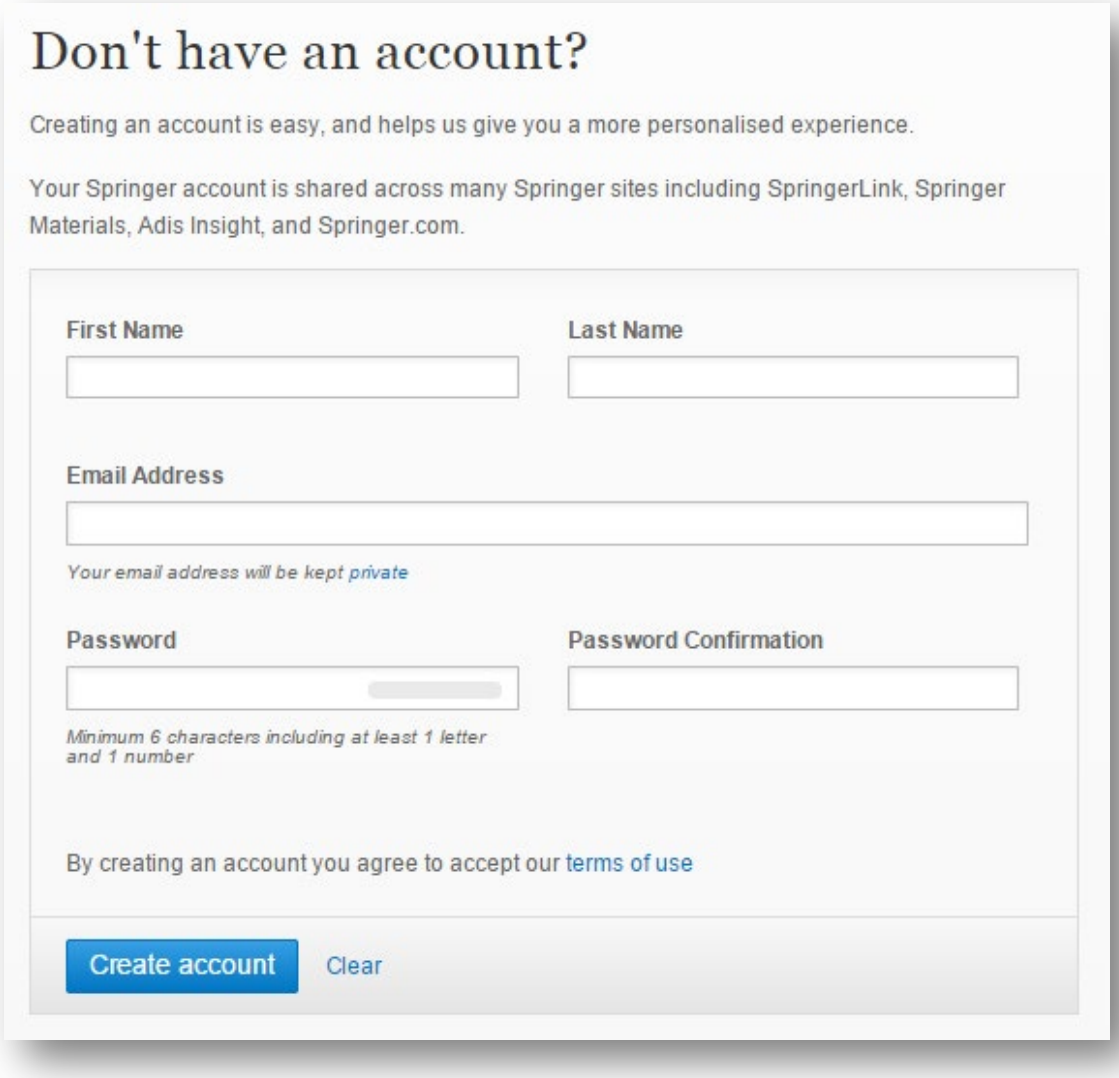
Registered users can log-in directly

Or log in with your corporate account

Or choose Shibboleth or Athens for institutional access

Create a new account

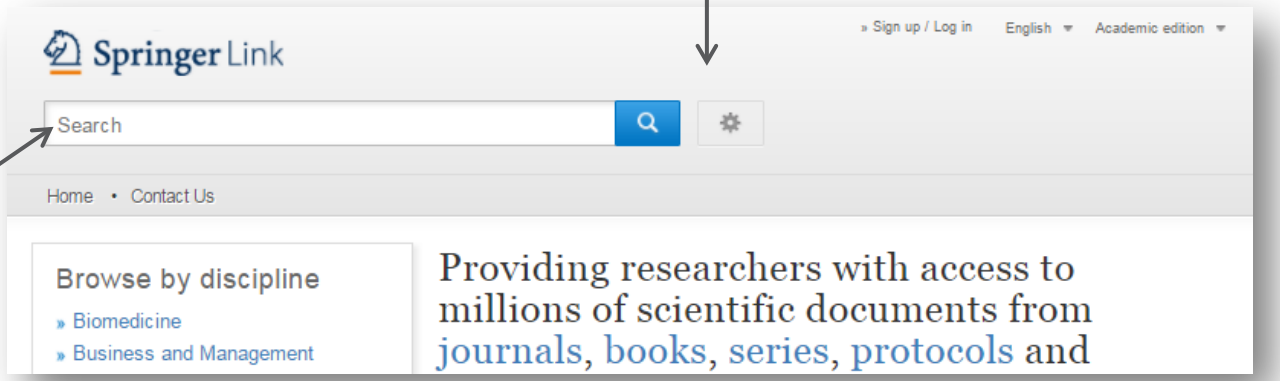
Users not yet registered with SpringerLink can easily do so. The account will also be valid across springer.com

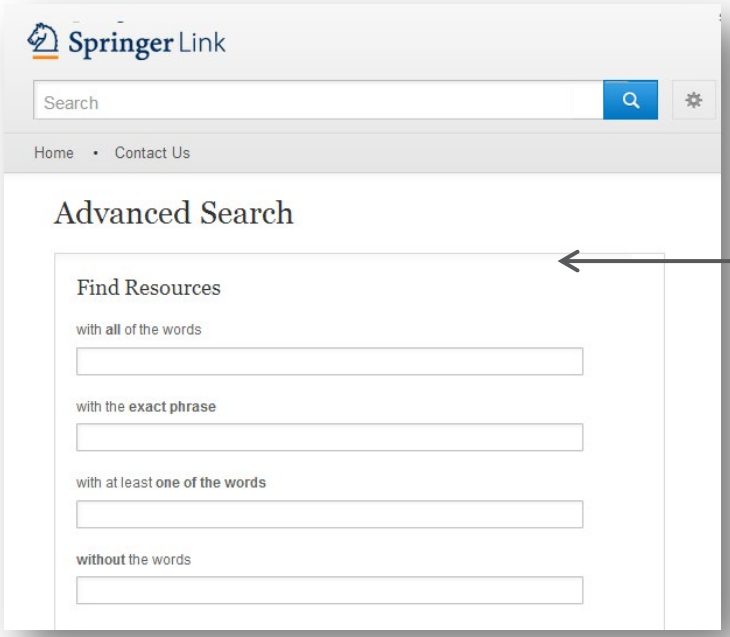


Search functions

Advance search options & search help are available as well

Most users access our content through the search functionality.
The search box is visible on every page

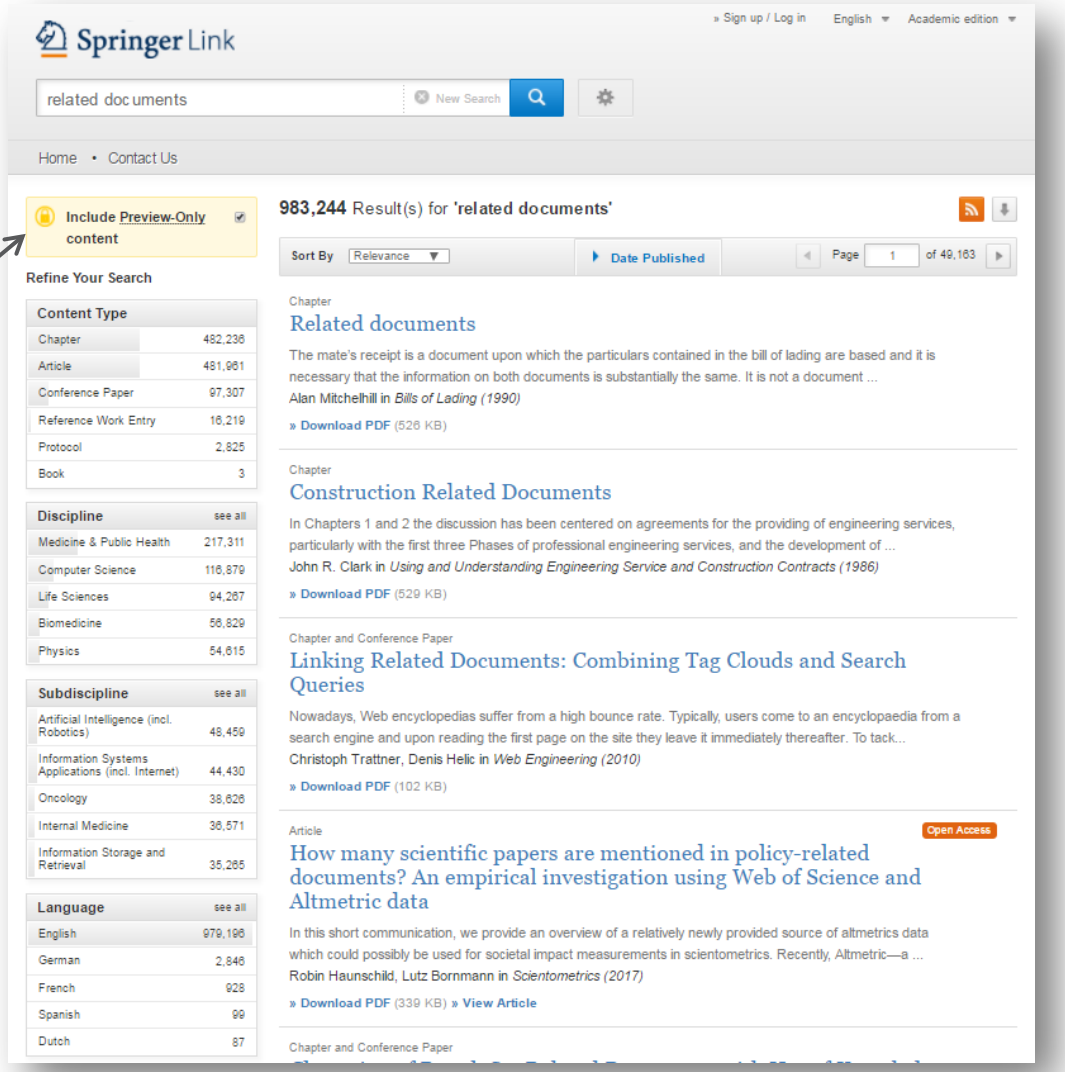




Use the Advanced Search option to further refine searches . You can limit your search to only content accessible to your institution.

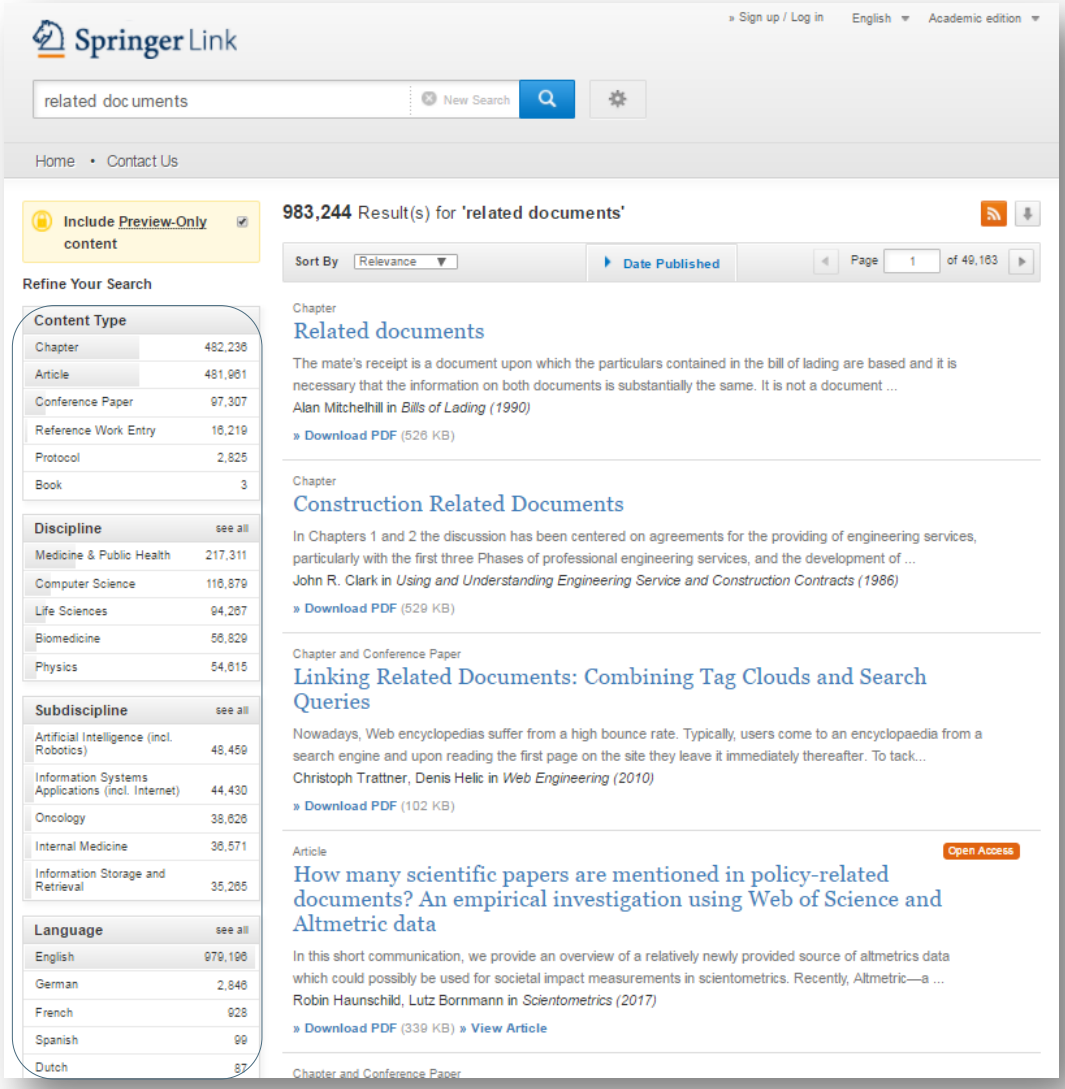
Search results page

To see only the results you have access to, un-check the yellow box above the search result filter the options returned.



Search results are listed to the right, covering all content within SpringerLink by default.

Search results page



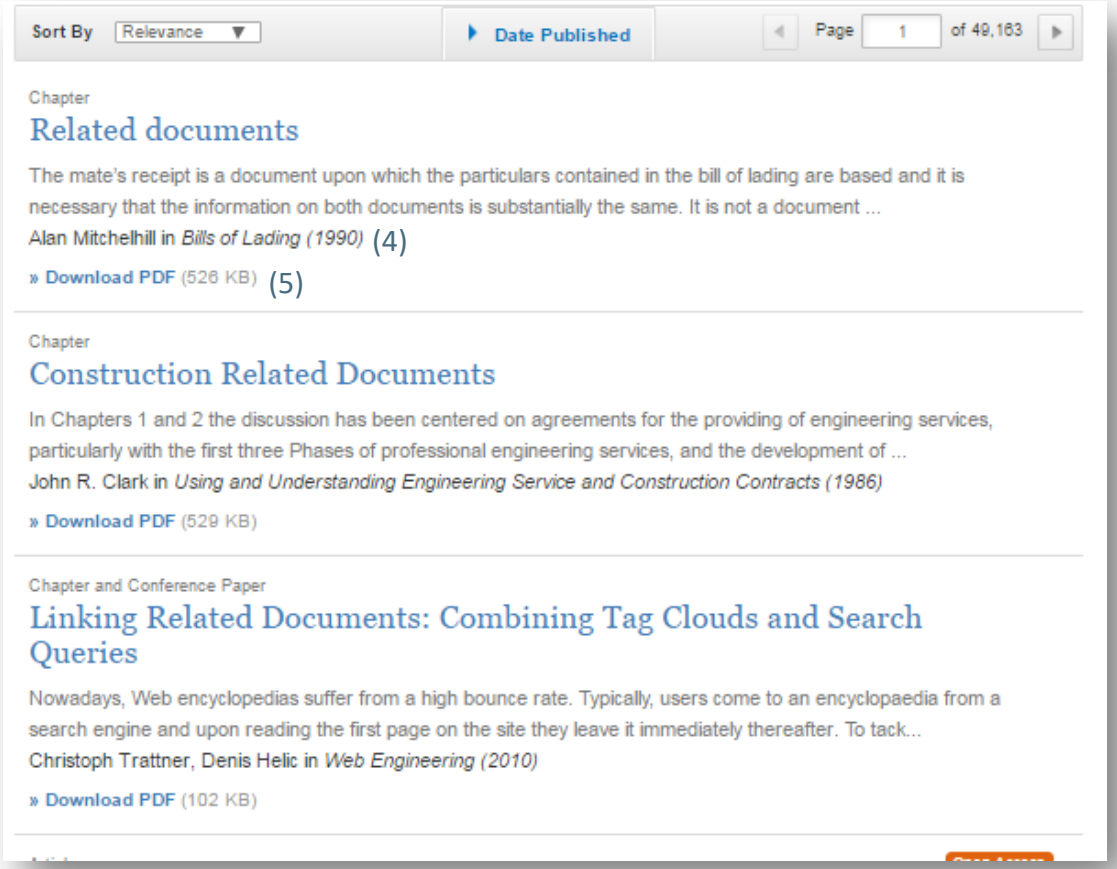
Filter Options

To the left you will find pre-defined filter options that help you to optimize your search result.

The following filter options are available:

- **Content type**
- **Discipline**
- **Sub-discipline**
- **Language**

Describing search features



Structure of list items within a search result page

1) Type of content
2) Title of list item
3) Author of list item
4) Published in which product
5) Download (full-text) PDF or view HTML if available

Sorting searches

Search sorting options are:

- Relevance
- Newest First
- Oldest First

You may also choose to search within a specific date range

RSS Feed
You many subscribe to an RSS feed for your search results page by clicking the orange button.

Download List
Above the pagination you will see an arrow displayed that allows you to download the first 1000 search results as a CSV file.

Abstract

Nodal root angle in sorghum influences vertical and horizontal root distribution in the soil profile and is thus relevant to drought adaptation. In this study, we report for the first time on the mapping of four QTL for nodal root angle (*qRA*) in sorghum, in addition to three QTL for root dry weight, two for shoot dry weight, and three for plant leaf area. Phenotyping was done

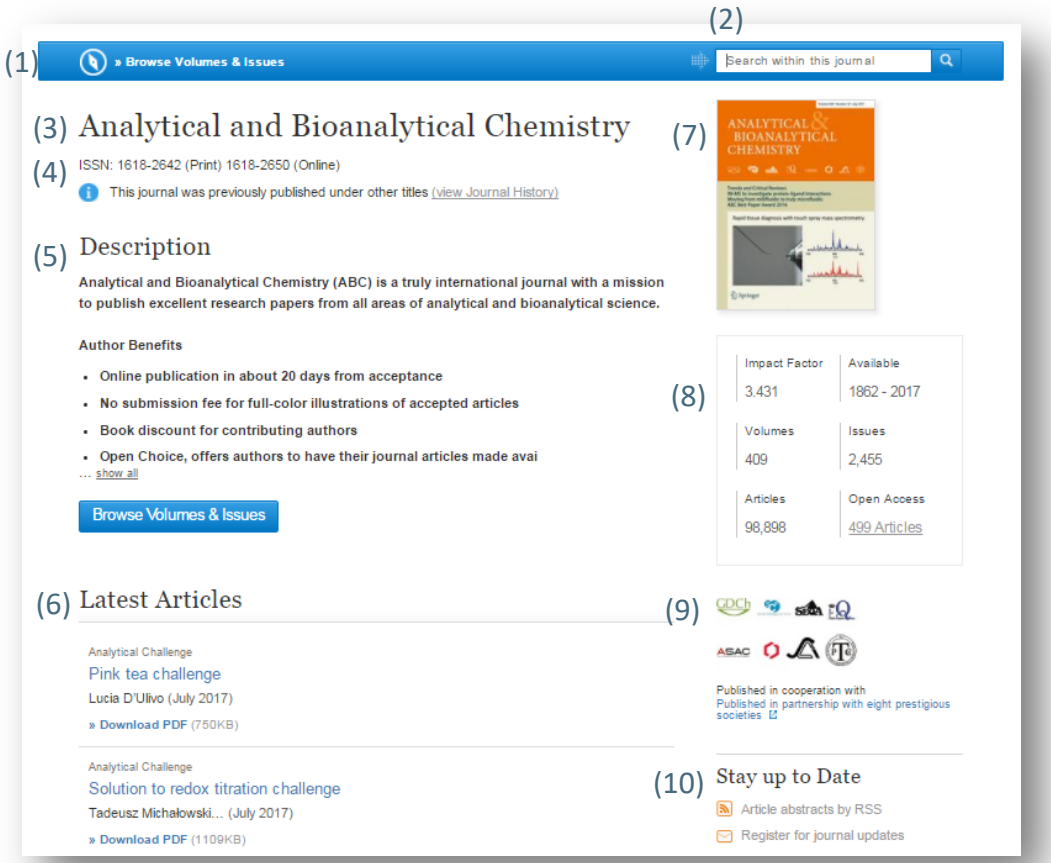
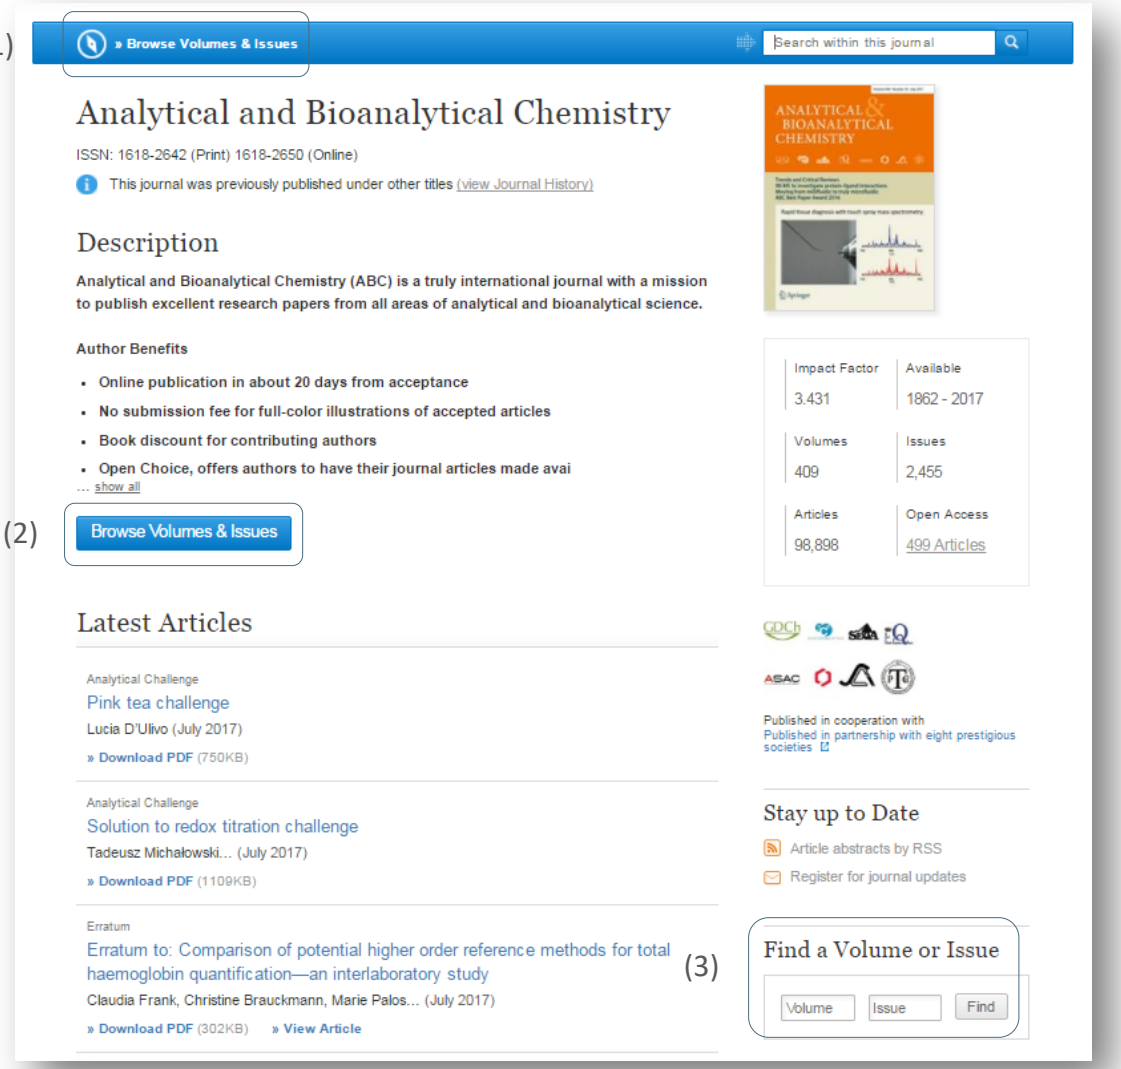
Journal Homepage



Functionality Overview

1) Browse Volumes & Issues
2) Search within this journal
3) Journal Title
4) Journal ISSN
5) Journal description
6) List of latest articles
7) Journal Cover
8) Journal metrics and content coverage
9) Co-publisher/society partners
10) Alerts & More information

Product pages – Journal Volumes & Issues Navigation

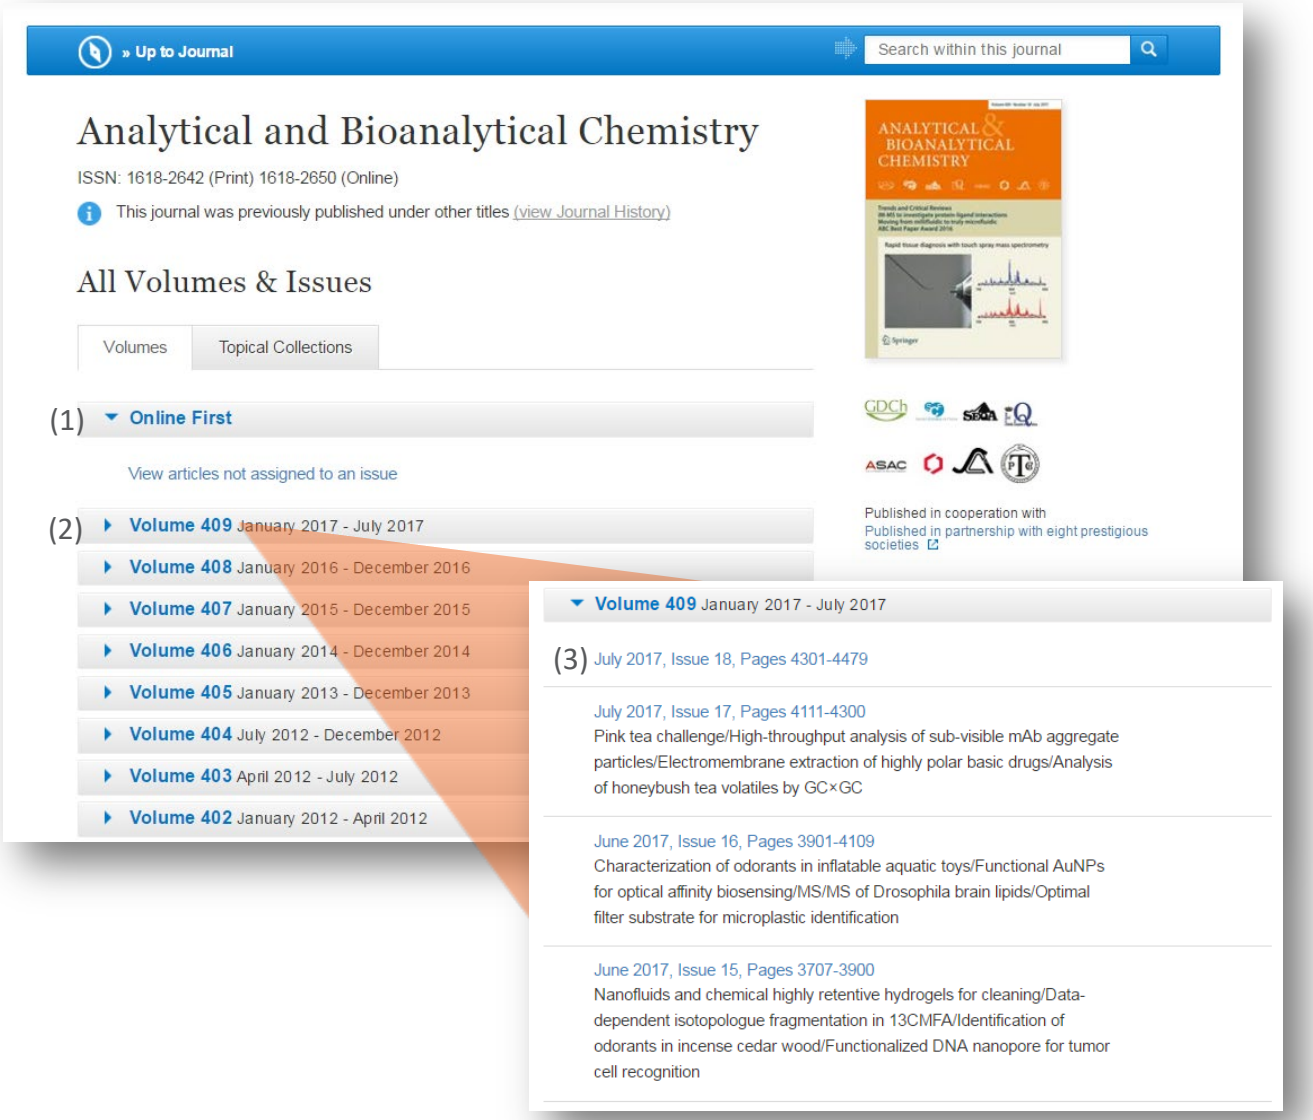


1) On the journal homepage you can press the All Volumes and Issues link within the blue bar on top of the page

2) You can also use the blue Browse Volumes & Issues button for the same overview

3) To the right of the Latest Articles you find a gray box that allows you to navigate specific volumes and issues

Product pages – All Journal Volumes and Issues

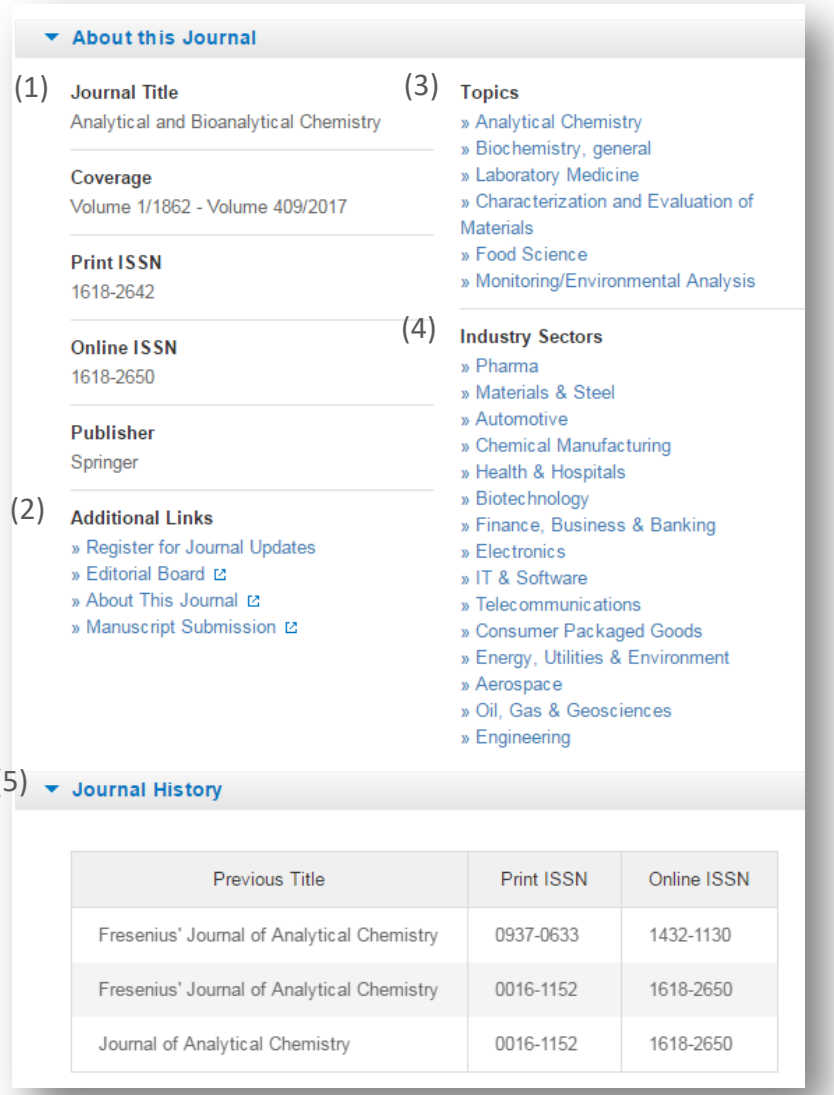


1) Clicking on the tab for Online First will allow you to search for latest articles which are not yet assigned to an issue (not applicable for all journals)

2) You see links to the most recent content displayed on top of the page

3) The content of older volumes is hidden behind the grey volume bars. If you click on the gray volume bar, the content of this volume is shown

Product pages - About this Journal



At the bottom of the journal homepage you find detailed information about the journal, including:

1) The bibliographic information
2) Additional Links, to Register for Journal Updates, Editorial Board Manuscript Submission and About this Journal
3) Topics links to related search results
4) Industry Sectors links to related search results
5) Journal History with details of previous titles

Accessibility

Springer Nature is committed to making our website as accessible as possible to everyone, including those with visual, hearing, cognitive and motor impairments.

We're constantly working towards improving the accessibility of our website to ensure we provide equal access to all of our users.

As part of our commitment to accessibility, we ensure that our website is compatible with:

- Recent versions of popular screen readers
- Operating system screen magnifiers
- Speech recognition software
- Operating system speech packages
