

CONNECT PATRONS TO RESEARCH RESOURCES

Summon search results

Summon improves library discovery by bringing together research resources and allowing libraries the flexibility to create the user experience their patrons desire. Whether using an out-of-the-box implementation or taking advantage of a comprehensive API, libraries rely on this proven, vendor-neutral solution to meet their users' research needs and achieve their organizational goals.

Summon is more than your typical discovery service, as it goes beyond the integrated search experience characterized by a content index and a single-search box. It comes with these valuable features, but it also includes unparalleled customization options, extended integrations, and easy-to-use administrative tools to make discovery easier for both users and librarians.
